Tactical Notes

- Red Zone Efficiency: Carolina reached the red zone 4 times, finishing with 2 TDs, 1 FG, and 1 fumble (75% scoring). New York reached the red zone 3 times but managed only 1 TD and 2 turnovers (1 punt, 1 half-ending drive). The Giants' 1-for-3 red-zone success was the difference.
- Fourth Down Usage (FG/Punt only): Both teams used 4th down exclusively for kicks and punts – no conversion attempts. Carolina converted two FGs (53, 36), while New York converted one (42) and missed one (43).
- Pass Rush: Carolina's defense was more efficient – 2 sacks, 5 QB hits on 18 blitz snaps vs. New York's 1 sack, 4 QB hits on 21 blitz snaps. The Panthers' pressure style forced the key overtime fumble.
- Turnover Margin: The Giants committed 2 giveaways (both INTs) and 1 fumble lost (OT). The Panthers committed 0 giveaways. That +3 turnover margin was the single biggest tactical edge.
- Rushing Balance: Carolina leaned on Chuba Hubbard (28 carries, 153 yards) while New York used a committee (Tracy 18, Singletary 8, Jones 7). The Panthers' workload control kept their defense fresh late.
- Conservative Approach: Neither team attempted a 4th-down conversion (non-kicking/punting). The game was decided by field position and turnovers, not aggressive calls.

- Pass-rush efficiency: CAR's 2 sacks and 5 QB hits on 18 blitzes (vs. NYG's 1 sack, 4 hits on 21 blitzes) generated the key pressure in overtime.
- The Giants' comeback was real – they erased a 10-point deficit and tied it at 17-17 – but they never held a lead all game.
